PROFESSIONAL SUMMARY

Java Full Stack Developer (B.Tech CSE, 2026) with hands-on experience building database-driven web applications using Core Java, Spring Boot, Hibernate/JPA, JDBC, REST APIs, SQL and PostgreSQL. Strong foundation in OOP, Collections, Multithreading, Data Structures and Algorithms. Currently working as a Java Full Stack Developer Intern, building CRUD-based applications with HTML, CSS and JavaScript front ends.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript
Backend: Spring Framework, Spring Boot, Hibernate, JPA, JDBC, Servlets, REST APIs
Frontend: HTML, CSS, JavaScript
Databases: PostgreSQL, Oracle SQL
Core Java: OOP, Collections, Exception Handling, Multithreading
Data Structures & Algorithms: Arrays, Linked List, Stack, Queue, Sorting, Searching
Database Concepts: Joins, Subqueries, Aggregate Functions, Transactions, CRUD
Tools: Git, GitHub, IntelliJ IDEA, Eclipse, VS Code

EXPERIENCE

Java Full Stack Developer Intern April 2026 – Present
JSpiders, Marathahalli, Bengaluru

- Developed Java applications using Core Java, OOP, Collections, JDBC, Hibernate, Servlets and Spring Boot.
- Performed CRUD operations and relational data handling with SQL, JDBC and PostgreSQL.
- Built interactive web interfaces with HTML, CSS and JavaScript connected to Java backends.
- Worked with REST APIs and used Git and GitHub for version control.

PROJECTS

Cab Booking Mini System
Java, Spring Boot, Hibernate, JDBC, PostgreSQL, HTML, CSS, JavaScript

- Developed a web-based cab booking application covering customer registration, cab selection, pickup and destination details, and ride booking.
- Implemented CRUD operations with JDBC and PostgreSQL across 4 entities: customers, drivers, cabs and bookings.
- Built cab availability, driver assignment, booking status, cancellation and distance-based fare calculation features.

Smart Clothing Recommendation System
Java, Hibernate, JPA, PostgreSQL, HTML, CSS, JavaScript

- Developed a personalized clothing recommendation system using user preferences and e-commerce interaction data.
- Implemented Hibernate/JPA entity mappings and CRUD operations for 5 entities: users, products, categories, preferences and interactions.
- Built a Java recommendation engine using attribute matching and interaction-based scoring to suggest relevant products.

EDUCATION

B.Tech, Computer Science and Engineering 2022 – 2026
Siddhartha Institute of Science and Technology

Intermediate (12th), Sri Vivekananda Junior College – 67% 2020 – 2022
SSC (10th), Vedavathi EM High School – 84.67% 2020
